

Project Implementation Plan

Date	Task	Owner	Due Date	Status	Estimated Hou	Actual Hours	Comments
Week 7	Setup Git Repo	Yeong Chai	19/10/2015		0.2	0.5	Done
Break Week	Create MEAN Project	Siew Yu	22/10/2015		0.5	1	Done
	Finalize Prototypes	Siew Yu	26/10/2015		1	2	Working on it.
	Create Views for Search Route	Ashwini	27/10/2015		2	1	Still working on it
	CSS for main template pages	Yeong Chai	27/10/2015		2		Not started
	Setup MongoDB	Otto	29/10/2015		0.5		Not started
Week 8	Create a design template for the pages	Yeong Chai	28/10/2015		2		Not started
Main Logic	Add data into MongoDB	Otto	28/10/2015		0.5		Not started
	Functionality and dialog for Search Route page	Siew Yu	30/10/2015		2		Not started
	Controller logic for log in	Ashwini	30/10/2015		2		Not started
	High Priority: Implement GoogleMap API to pin location from a user's input	Yeong Chai	30/10/2015		5		Not started
Week 9	High Priority: Create a shortest route possible between 2 given location inputs from user's inp	Otto	04/11/15		8		Not started
Main Logic	Good to have: Find all possible routes possible between 2 given location inputs from user's inp	Siew Yu	08/11/15		8		Not started
	Good to have: Create a working form for Crowdsourced traffic reportings by logged in users	Ashwini	08/11/15		2		Not started
	Good to have: Display all crowdsourced traffic reports with voting ability for logged in users	Yeong Chai	08/11/15		4		Not started
Week 10	Test and debug location pinning accuracy	Yeong Chai	17/11/15		5		Not started
Tuning & Testing	Test and debug routing ability from given location A to B	Otto	17/11/15		6		Not started
	Test and debug crowdsourcing reports submission and view	Ashwini	19/11/15		6		Not started
	Review all bugs found and rectify them	Siew Yu	22/11/15		8		Not started
