

Date	Task	Priority	Owner	Due Date	Status	Estimated Hou	Actual Hours	Comments
Week 7	Setup Git Repo		Yeong Chai	19/10/2015		0.2	0.5	Done
Break Week	Create MEAN Project		Siew Yu	22/10/2015		0.5	1	Done
	Finalize Prototypes		Ashwini	26/10/2015		1	2	Completed.
	Create Views for Search Route		Ashwini	27/10/2015		2	1	Completed.
	CSS for main template pages		Yeong Chai	27/10/2015		2		Completed.
	Setup MongoDB		Otto	29/10/2015		0.5		Completed.
Week 8	Create a design template for the pages		Yeong Chai	28/10/2015		2		Completed.
Main Logic	Add data into MongoDB		Siew Yu	28/10/2015		0.5		Completed.
	Functionality and dialog for Search Route page		Otto	30/10/2015		2		Completed
	Good to have: Controller logic for log in		Ashwini	30/10/2015		2		Completed.
	High Priority: Implement GoogleMap API to pin location from a user's input		Siew Yu	30/10/2015		5		Completed
Week 9	High Priority: Create a shortest route possible between 2 given location inputs from user's inp		Otto	04/11/15		8		Completed.
Main Logic	Good to have: Find all possible routes between 2 given location inputs from user's inp		Yeong Chai	08/11/15		8		Completed.
	Good to have: Display all routes in angular-material collapsibles.		Otto	08/11/15		6		Couldn't do a collapsible, completed with hide/show with button instead
	Good to have: Create a working form for Crowdsourced traffic reportings by logged in users		Ashwini	08/11/15		4		Completed.
	Good to have: Display all crowdsourced traffic reports with voting ability for logged in users		Siew Yu	08/11/15		4		Completed.
Week 10	Test and debug location pinning accuracy		Yeong Chai	17/11/15		5		Not started
Tuning & Testing	Test and debug routing ability from given location A to B		Otto	17/11/15		6		Not started
	Test and debug crowdsourcing reports submission and view		Ashwini	19/11/15		6		Not started
	Review all bugs found and rectify them		Siew Yu	22/11/15		8		Not started
